LaCie

Create Your Own USB Flash Keys with This Stylish Twin USB Card Reader

SD/microSD

USB 2.0

iF product design award 2009

Design by 5.5 Designers
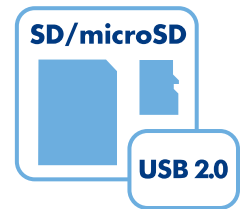

Superior Reliability and Compatibility

The LaCie DataShare comes with Push/Push SD and microSD connectors, making it one of the most reliable options on the market. It's also backward-compatible with USB 1.1. And of course, the DataShare is compatible with all the latest and fastest SD cards on the market (including SD High Capacity).

Creative Design

A product of the 5.5 Designers firm, the LaCie DataShare is more than just a practical addition to your desk. The first in a line of new products produced in conjunction with 5.5 Designers, the attention-grabbing DataShare is a practical tool for your home or business, but its fun and colorful design helps it stand out from the crowd.

Turn Your SD and microSD Cards into USB Flash Keys

With the new LaCie DataShare, you can easily recycle your old SD and MicroSD cards, and turn them into USB Flash Keys. Additionally, by using the DataShare, you can choose your own capacity for your new USB Flash Key, helping you customize the USB keys that you create. The fast transfer rate ensures that you can quickly and effectively bring new life to your old SD and microSD cards, saving you time, money, and resources. The DataShare has two sides, with two card readers: one for your personal data, and one for your shared data.
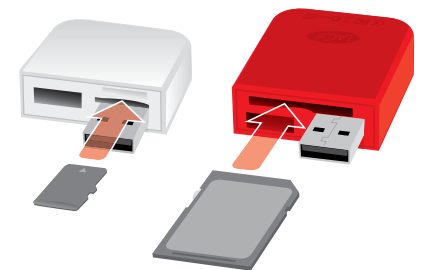

- Recycle your SD and microSD cards—turn them into USB Flash keys!
- Two-in-one product: separate private data from data to share
- Hot pluggable and driver-free
- Fast and reliable transfer rates

Features
- Compatible with all SD and microSD cards on the market (SD/SDHC/Class 1 to 6).
- Driver-free under Windows/MacOS/Linux-based systems.
- Push/Push SD and microSD connectors for superior reliability.
