

LACIE LaCinema Black PLAY

High Definition Media Player

500GB*

-  710 movies or
-  165,000 songs or
-  500,000 photos**

- Play movies, photos, and music on HDTV
- Give your pictures a new dimension
- Create your own playlists in your living room
- Play media from networked computers

High Definition Media Player

With the LaCinema Black PLAY, you'll be able to view all your music, photos, and movies, right on your television screen. The high-capacity LaCinema Black PLAY allows you to increase the capacity with its USB port, turning your TV into your own personal media player, with near limitless storage. Create photo slideshows for your family and friends, play your music when you want it, or view HD movies anytime; the possibilities are endless.

Watch in High Definition

Designed with High Definition in mind, the LaCinema Black PLAY allows you to watch HD movies on your HDTV. This compatibility with HDTV helps you enjoy your movies with more detail, clarity, and sharpness, making the LaCinema Black PLAY a vital part of your viewing and entertainment experience.

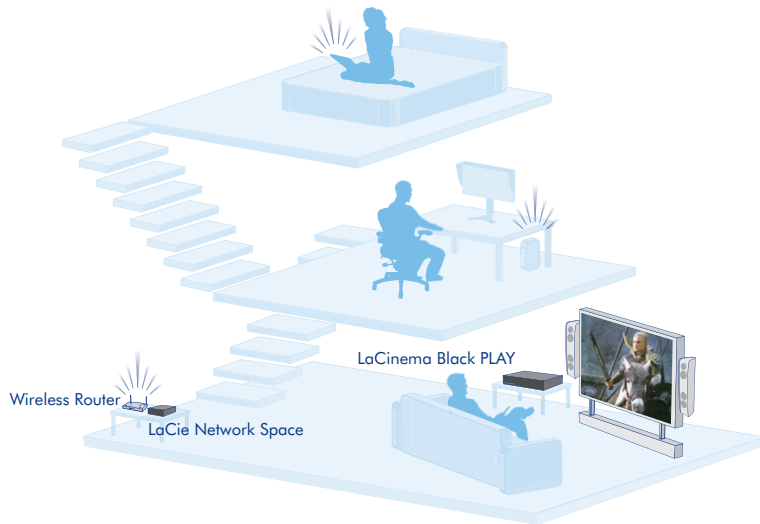

Give Your Pictures a New Dimension

Connect your digital camera to easily view your photos in full HD resolution, or create your own slideshows, complete with your own transition effects.

Your Music, How You Want It

Playlist management features and access to all of your music libraries let you play your music whenever you want, and with an optical audio output, you can enjoy your music in surround sound.

Works With You—And Your Network

The networking capabilities of the LaCinema Black PLAY make it easy to access and view all of your multimedia content. A built-in UPnP client player ensures that you can connect it to a networked PC or Mac and you'll be able to load, watch, and enjoy all of your photos, music, and movies—regardless of where they're located in your house.

Functional, Sophisticated Design

Created for LaCie by world-famous industrial designer Neil Poulton, the LaCinema Black PLAY goes beyond ordinary multimedia hard disks with its sophisticated design. Simply connect it to your PC via USB to transfer your digital media files; then plug it into your TV for instant playback, or access it wirelessly if you prefer.
