

**LACIE**

LaCie Big Disk

Large-scale storage with triple interface solution

● ONE HALF TERABYTE OF STORAGE

Delivering storage capacity that makes this device one of the largest hard drives on the market, the LaCie Big Disk is a unique innovation that offers an impressive 500GB of storage space in a 5.25-inch format. With this spacious capacity, the 500GB LaCie Big Disk lets users store two days of digital video from DV camcorders, or the equivalent of 100 personal DVD-Video discs (MPEG-2).

● TRIPLE INTERFACE SPEEDS

Equipped with a unique triple interface solution, the LaCie Big Disk delivers transfer rates of up to 800Mbps/sec and can be connected to any computer equipped with FireWire 800, FireWire 400, iLink/DV, Hi-Speed USB 2.0 or USB 1.1. Hot-pluggable with immediate device recognition, this drive's FireWire capabilities offer unbeatable ease of use with no software installation required for Windows XP and Mac OS X users. The LaCie Big Disk can also be daisy chained to most storage, audio and video devices to achieve even greater storage capacity.

● ALUMINUM ALLOY DESIGN

The LaCie Big Disk features a stylish, metallic design crafted from a sturdy aluminum alloy that dissipates heat, allowing for operation without a noisy fan. A drive stand provides stability and allows for upright desktop use to save valuable desk space, while an optional rack-mounting kit enables versatile configuration in standard 19-inch racks. This drive's convenient, automatic on/off feature conserves energy and prolongs the life of the drive. Stackable to allow for a uniform look, the LaCie Big Disk in the d2 design is also compatible with Kensington-type locks for added security, at home or away.

● ARCHIVE DIGITAL AUDIO/VIDEO

The LaCie Big Disk is ideal for space-hungry applications such as archiving image banks and 3D images, storing large desktop publishing files, and editing digital audio and uncompressed digital video. This drive can be easily shared and its data quickly exchanged among computers and workstations. With such a large capacity, the LaCie Big Disk is also ideal for large-scale backup among multiple users without clogging the network.

- Generous 500GB storage capacity
- FireWire 800, FireWire 400 and USB 2.0 connection
- Sturdy aluminum alloy design
- Stackable desktop or rackmount configuration

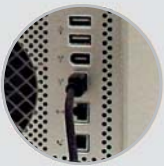

FEATURES

- Capacities as large as 500GB*
- User-friendly FireWire 800, FireWire 400 and USB 2.0 interfaces
- Automatic on/off feature conserves energy
- Fan-free design for quiet work environments
- Aluminum alloy design dissipates heat
- Comes with Silverlining Utilities (Mac/PC) and SilverKeeper (Mac) software

ACCESSORIES

- LaCie Storage Utilities CD-ROM
- FireWire 800 to FireWire 800 (9-to-9 pin) cable
- FireWire 400 to FireWire 400 (6-to-6 pin) cable
- iLink/DV (6-to-4 pin) cable and USB 2.0 cable
- Drive stand for upright desktop use
- Rackmount kit with reversible brackets (sold separately)
- Desktop rack unit (sold separately)
- External power supply
- Security lock (sold separately)

SYSTEM REQUIREMENTS

- FireWire 800 (9-pin)-equipped computer: Mac OS 10.2.4 and greater; Windows 2000 and Windows XP
- Computer equipped with FireWire 400 (6-pin) or iLink (4-pin): Mac OS 9.x and Mac OS 10.x; Windows 98 SE, Windows 2000, Windows Me and Windows XP
- USB 2.0-equipped computer: Mac OS 10.2.x and greater, Windows 2000 and Windows XP
- USB 1.1-equipped computer: Mac OS 9.x and 10.x, Windows 2000 and Windows XP
- Intel Pentium II 350MHz-compatible or Apple G3 processor and greater
- Minimum 64MB RAM

*Apple G4 processor required for use with FireWire 800
