

Christofle

G A L E T

USB KEY

Luxury for Every Day.

### Changing the Definition

Introducing the Galet, designed by Christofle and LaCie. It's not just a new partnership, it's a new way of thinking about personal storage. It's a silver-plated conversation piece that combines form and function to result in a sophisticated solution for anyone who needs access to their files on the go.

### A Natural Collaboration

Since its creation in 1830, Christofle has worked with renowned designers and creators to showcase silver, and is now a true international luxury brand. Sharing the same creative passion and demand for excellence, Christofle and LaCie have joined forces to introduce a precious gem that can hold all of your memories – Galet. With its beautiful pebble shape and magnificent shine, the Galet breaks the mold.

### Mobility Made Chic

With the Galet and its USB 2.0 interface, it's easy to copy and store files, anywhere. Compatibility with USB 3.0 comes standard. The Galet's pebble shape easily fits in your pocket, on your key chain (with the included strap), or even around your neck, so you can take it with you wherever you go.

### Complete Software Suite

The Galet comes with 4GB of Wuala online storage, doubling its storage capacity. In addition, LaCie Private-Public software is included, if some, or even all of your data needs to be secure, encrypted, and accessible with a password. It's the ultimate in security—personalized, customizable protection.

- Imagined by Christofle
- Assembled and silvered in France
- 4GB of storage
