

LaCie Core4

Design by Sam Hecht

USB 2.0 Hub

**More Ports.
More Colors.
More Possibilities.**

Optimize Your USB Devices

The LaCie Core4 lets you connect multiple USB devices at once, with its four USB 2.0 ports (including 1 built-in USB miniB cable). It's a convenient, portable, and functional way to make sure that you always get the most of out all of your USB devices, whether you're on a PC laptop or a Mac laptop. Its fast interface transfer rates ensure that you'll get the performance you expect, and its lightweight form factor makes it easy to take with you.

Unique Design

Sam Hecht, the world-famous product designer behind the LaCie Little Disk, designed the Core4 exclusively for LaCie, and its stylish, matchbox design is at home on any desktop. Available in your choice of three dynamic color combinations, the Core4's modern exterior takes it a step beyond ordinary USB hubs.

Built-in Cables

With two built-in cables, the LaCie Core4 allows you to connect all of your mobile devices. The USB mini-B cable is compatible with many popular cell phones, cameras, hard disks, and other devices, adding to the convenience of the Core4. Each cable fits effortlessly under each side of the Core4, making it one of the most compact and portable USB hubs on the market.

Made for Mobility

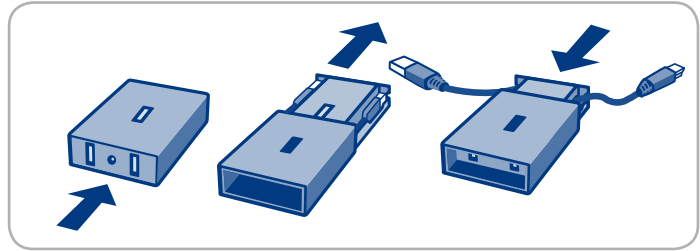

Thanks to the compact design, it's easy to take the LaCie Core4 with you on the road, which makes it simple to expand the capabilities of almost any computer. Weighing just 50g, the Core4 fits comfortably in a small accessories bag or purse.

*USB host cables must be plugged into your computer. Otherwise, the USB ports on the Core4 will not work properly. Connecting too many bus-powered devices to the Core4 may cause insufficient power for operating all of your devices. In this case, you will need to use an external power supply (5V/2.6A), sold separately at www.lacie.com/accessories.
