

eSATA PCI Card

DESIGN BY SISMO

Add Two eSATA Ports to Your Computer

Get Connected Faster

Add the LaCie eSATA PCI Card for instant connectivity to your eSATA peripherals. The LaCie eSATA PCI Card Design by Sismo features two external eSATA connectors, and can run at speeds of up to 1.5 Gbits/s, making it the best interface choice for professionals who demand high speeds. The LaCie eSATA PCI Card Design by Sismo supports all eSATA devices (SATA I and SATA II). This versatile card has a 32-bit PCI form factor for superior compatibility with all motherboard sizes.

Easy Installation

Installation is extremely easy, and the LaCie eSATA PCI Card is even driver-free on Mac® OS! And since it's hot pluggable, there's no need to restart your computer when you plug a new eSATA device into it; you'll be able to use the card as soon as you plug it in. Just find an available PCI slot, and you can instantly put the eSATA PCI Card to work.

Data Protection

This card supports RAID 0 and RAID 1 for data protection in Mac OS X and Windows®, making it ideal for users who need fast, efficient, and reliable backup of their data. Choosing RAID 0 offers maximum speed and capacity during data backup, while RAID 1 helps provide maximum data safety by writing data twice. With the LaCie eSATA PCI Card, it's your choice.

Functional Design

Created in collaboration with design firm Sismo, the LaCie eSATA PCI Card features an anti-static handle that provides protection and safety against electrostatic discharge that can damage your card, storage device, or even computer. Its unique, exclusive design shows a commitment both to form and function.

- Add two eSATA ports to your computer
- Anti-static handle for electrostatic discharge protection
- Fast transfer rate up to 150MB/s
- Unique, exclusive design by Sismo

eSATA PCI Card

DESIGN BY SISMO

Features

- Fast interface transfer rates: up to 1.5Gbits/s
- Supports RAID 0 and RAID 1 modes
- Compliant with 32-bit PCI slots (32-bit/33MHz)
- Use with PC or Mac*
- Anti-static handle
- Easy to install

Box Content

- LaCie eSATA PCI Card
- Quick Install Guide
- Drivers and RAID Software for Windows OS and User Manual on CD-ROM

Minimum System Requirements

- PC or Mac with a PCI slot (32-bit/33MHz)
- Latest version of Windows XP, Windows Vista®, Windows 7 / Mac OS X 10.5, 10.6

Item Number	130823
Interface	Two external eSATA connectors
Max Interface Transfer Rates	up to 1.5 Gbits/s (150 MB/s)
Hardware Compatibility	32-bit PCI slots* Supports SATA II NCQ RAID 0/1 support
Dimensions (WxDxH)	134 x 123 x 23 mm / 5.3 x 4.8 x .9 in.
Weight	60 g / 2.1 oz.
Warranty	1-year limited

* This card must be set up with a jumper located directly on the PCB in order to be used with a Mac computer. By changing the jumper setting on the card, you can use it with a PC or Mac. A eSATA data cable is needed for connection (sold separately). This PCI card is not compatible with PCI express slots, laptops, or notebook computers.
