

dvd±rw SLIM
DOUBLE LAYER
DESIGN BY F.A.PORSCHÉ

LACIE

- Exclusive Toast® 6.0 Titanium bundle
- Create your DVD in less than 10 minutes
- FireWire bus powered
- Features 8.5GB Double Layer

store 8.5GB on a single sided disc
With new double layer DVD recording technology, the LaCie DVD±RW Drive can be used to store nearly twice as much data as before. With up to 8.5GB of space on a single-sided, double layer DVD disc, save up to 16 hours of VHS video, 4 hours of personal, high-quality DVD video or up to 8.5GB of important information. Large-capacity, double layer DVD media is also ideal for backing up computer systems or saving thousands of MP3s.

broad compatibility
This rewritable drive can also be connected to any Macintosh computer, making it the most versatile drive around. Compatible with virtually all DVD players, completed DVDs can be played back to share with family and friends. Write to DVD-R/RW, DVD+R/RW, CD-R/RW and double layer DVD±R DL media.

fast bus powered DVD recording
Featuring fast DVD record speeds, the LaCie Slim DVD±RW Drive burns at 8x speeds in DVD-R and DVD+R formats. Using the power provided by the FireWire bus, it can conveniently operate without an AC adapter.

Toast® 6.0 Titanium
Toast® 6 Titanium, the newest and fastest version of Roxio's award winning CD/DVD burning software, is the foundation of your digital life. Toast helps you do even more with iTunes, iPhoto, and iMovie. Now it's easier than ever to make the most of your data, music, photos, and video. Don't Burn It. Toast It.
