

LACIE Hard Disk Max

£184 inc VAT

From www.cclonline.com

The Max is equipped with two 1TB hard disks, which can be configured as either a RAID 0 or 1 array. In either mode, its performance was impressively quick. Once the two-year warranty has expired, replacing the disks yourself in the event of disk failure is very easy. It's cheap, too, at only 9p per gigabyte, making it among the best RAID-capable external hard disks we've seen.

DESKTOP EXTERNAL HARD
DISK 1TB + 1TB capacity,
