PROFESSIONAL DUAL-DISK HARDWARE
RAID

Data Sheet

Speed and Reliability. By Design.

- Shocking speeds up to 420 MB/s[1]
- Dual Thunderbolt 2 ports for 4K workflows
- Innovative design with RAID for reliability
- USB 3.0 for PC and Mac® compatibility

design by neil poulton

Product Overview

The new LaCie 2big offers game-changing speeds, compatibility, and usability for backup, file transfers, and 4K workflows. Squeezing the maximum speeds out of its 7,200 RPM drives, it also features Thunderbolt 2 transfer interface speeds and hardware RAID. And thanks to USB 3.0, it can be connected to nearly any computer. Its new industrial design crushes the competition, making giant leaps forward for professional usability and reliability.

Use Cases

- Digital Content Creation: Thunderbolt 2 bandwidth gives creative pros enough bandwidth to shave time off their workflows. Post-production pros can edit multiple 2K uncompressed 10-bit streams or play back compressed 4K video. Photographers will appreciate highly responsive library browsing. And audio pros using Avid® Pro Tools® and other software will notice much smoother audio mixing.
- Backup: Dramatic I/O speeds through Thunderbolt 2 or USB 3.0 mean incredibly fast backups on any workstation. At the same time, hardware RAID 1 and effective cooling ensure complete reliability.
- Desktop Storage: Speed, capacity, and reliability make the LaCie 2big a perfect solution for storing current projects. These features also make this product a perfect way to expand capacity for the new Mac Pro®.

1 These transfer rates were achieved using AJA System Test when connected to a Mac computer via the Thunderbolt 2 interface. Actual data rates may vary depending on operating environment and other factors, such as chosen interface, RAID mode, RAID configuration, and disk capacity.

System Requirements

- Computer with a Thunderbolt™ 2, USB 3.0, Thunderbolt, or USB 2.0 port
- Thunderbolt 2: Latest version of Windows® 7, Windows 8 / Mac OS® X 10.8.5 or later
- USB 3.0: Windows 7, Windows 8, or Mac OS X 10.6 or later
- Minimum free disk space: 600 MB recommended

What's Included

- LaCie 2big Thunderbolt 2
- Thunderbolt cable
- USB 3.0 cable (USB 2.0 compatible)
- External power supply
- Quick Installation Guide
