Desktop SSD Storage  
Data Sheet

## **Elevated Design. Soaring Speed.**

Like a concept car, the LaCie Chromé defines the future for its class. A trophy for tech connoisseurs, it fuses forward-thinking technology with a startling, visionary design from Neil Poulton. As timeless as it is ahead of its time.

## **Really Fast for the Real World**

To squeeze the most out of the USB 3.1 Gen 2 potential, the LaCie Chromé features a pair of 500 GB M.2 SATA SSDs in RAID 0. Working together, these components deliver speeds of up to 940 MB/s<sup>1</sup> for serious bandwidth-intensive applications.

## **USB 3.1 Gen 2: Not Just New. The Future.**

This innovative new interface is more than just a doubling of USB 3.0 theoretical speeds to 10 Gb/s. Together, the new USB-C connector and USB 3.1 Gen 2 are a significant step forward for usability and compatibility.

## **Designed for Performance**

The LaCie Chromé is brilliantly engineered for the long term—from the enclosure to the internal components—to endure intensive storage tasks.

## **Designed to Shine**

"The LaCie Chromé is a concept reduced to its essence: a rectangle tilted onto its corner, melting into its base like quicksilver." – Neil Poulton, industrial designer

<sup>1</sup> Actual data rates may vary depending on operating environment and other factors.
