## THUNDERBOLT™

MOBILE DRIVE  
Data Sheet

### Tough in the Field. Fast Everywhere.

- Thunderbolt speeds of up to 387 MB/s<sup>1</sup>
- USB 3.0 for universal connectivity
- Bus powered for complete mobility
- Shock, dust, and water resistant for all-terrain use

design by neil poulton

### Product Overview

The new LaCie Rugged drive is the perfect solution for heavy data users who require extreme data security and mobility. With USB 3.0 and Thunderbolt ports, it is also one of the fastest bus-powered products ever. Now featuring two-meter drop resistance and IP 54-level protection against dust and water, the new LaCie Rugged drive goes even further to protect precious data.

### Use Cases

- On-the-Go Content Creators: Universal compatibility, mobility, durability, and lightning-fast transfer speeds let these users move data quickly, wherever they go.
- Secure Mobile Storage: Protects against drops of up to two meters (6.6 feet), dust, water, being run over by a 1-ton car,<sup>2</sup> and even against unauthorized access with AES 256-bit software encryption.<sup>3</sup>
- Large File Sharing: Professionals, consumers, and students benefit from universal connectivity and USB 2.0 compatibility to share large amounts of data with any standard computer.

<sup>1</sup> These transfer rates were achieved using AJA System Test with the SSD version connected to a Mac computer via the Thunderbolt interface.

<sup>2</sup> Determined by a test that approximates a real-world scenario in which the hard drive remained functional, despite aesthetic damage, after the product was driven over by an approximately 1-ton car (1000 kg / 2205 lbs).

<sup>3</sup> Encryption software is only available via download and is not available in Russia.
