

# LaCie Big Disk Network

DESIGN BY NEIL POULTON

**BACKUP**

## Professional File Server

Gigabit Ethernet

## Networking Via Ethernet

## Essential Networking Solution

The LaCie Big Disk Network offers professional, reliable, central storage for instantly storing, sharing, and backing up from any PC or Mac® on your network. With the LaCie Big Disk Network, you can share files among Windows®, Mac, and Linux users thanks to its SMB and AFP protocols support, or connect remotely through FTP, HTTP, and HTTPS file systems. Manage your home or small office network easily with this full-featured file server, recommended for networks with up to 50 users (15 at once).

## Back Up Your NAS Content

Get extra security and increase data portability by backing up your LaCie Big Disk Network—on your own schedule—to an external hard drive through its USB port using the built-in backup system. Automatically transfer files to or from another external hard disk with one easy push of the button on the front of the drive. The LaCie Big Disk Network comes also with Genie® Backup Manager Pro™ for Windows and Intego® Backup Manager Pro™ for Mac to install on each PC/Mac for client backups to the NAS. This software lets you reliably and efficiently back up your documents, emails, settings, or other digital assets; it supports compressed, encrypted, or image backups and initiates a computer recovery program in case of general crash.

## Multimedia Server Capabilities

With the LaCie Big Disk Network, it's easy to stream multimedia content to your television. You can play your media on any UPnP AV-compatible Digital Media Adapter (DMA), such as a PS3 or Xbox, without needing a computer—you can store the information directly on the LaCie Big Disk Network. In fact, the Big Disk Network has been developed to be compatible with any DLNA multimedia device, and also works with iTunes®. You can also download torrent files automatically with the LaCie Big Disk Network without even having to turn on your PC.

- Share files easily among PC, Mac, and Linux users
- Heat sink design for quieter operation
- Back up to external hard disks with USB
- Active Directory, Wake-on-LAN
- Stream your multimedia files to UPnP players

**1TB\*** =  
**125,000 songs**  
**or 500 movies**  
**or 100,000 office presentations\*\***

# A Multiprotocol Solution

<b>SMB or SAMBA</b>	Network file transfer for Windows, Linux, and Mac***
<b>AFP</b>	Network file transfer for Mac clients
<b>HTTP</b>	For accessing Big Disk Network admin and files using a Web browser
<b>HTTPS</b>	For those who prefer a secured connection using a Web browser
<b>FTP</b>	For accessing files remotely using FTP clients
<b>Bonjour</b>	For making files searchable through the network
<b>BitTorrent™</b>	For downloading large files from the Internet without a PC or Mac on

## Quick Access

Controlling access is simple; you can assign various security levels to shares, groups, user profiles, and public access. With Windows ADS domain support, there's no need to recreate existing user and group accounts of your Windows domain, making it easy to manage for IT Administrators. Thanks to the Wake-on-LAN feature, the LaCie Big Disk Network can be switched back to operating mode from the client side.

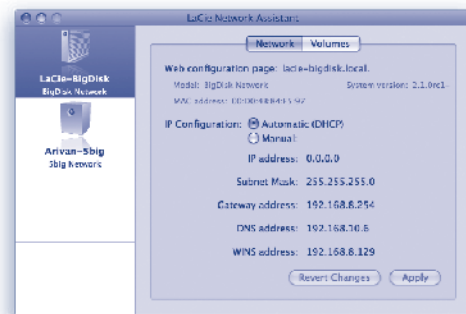

## Avant-Garde By Design

Designed exclusively for LaCie by the world-renowned designer Neil Poulton, the LaCie Big Disk Network was engineered to maximize reliability and longevity. Its sturdy aluminum body with a unique fanless heat sink design offers natural heat dissipation by providing 60% more surface area. Designed to stay cool without a fan, the LaCie Big Disk Network works both efficiently and quietly, helping it stand out from the competition, but silently blend into your work environment. With space-saving versatility, it can stand upright on your desk or lie vertically or be rackmounted with other drives to save space. For added security, there's a Kensington lock-compatible slot on the back.

## Easy to Use

With its intuitive Web interface, administration is easy, convenient, and secure. Thanks to the LaCie Big Disk Network's DHCP and Automatic IP support, network configuration is fast and automatic. The LaCie Big Disk Network also comes with the LaCie Network Assistant, an easy-to-use program available for Windows, Mac, and Linux users. The LaCie Big Disk Network keeps its administrator informed with email notifications for backup and downloads, as well as high temperatures and disk damage.

## Apple® Time Machine Compatible

The LaCie Big Disk Network is compatible with Mac OS X v10.5 Leopard, including Time Machine, making it an ideal partner for your Mac. Time Machine automatically backs up your Mac's system files, applications, accounts, preferences, music, photos, movies, and documents to an external hard drive and you can easily go back in time to recover anything.

## Features

- Cross-platform (Windows/Mac/Linux)
- Auto IP configuration access
- New Web-based administration page
- Assign shares, groups, user profiles, public, and guest access
- Active Directory support
- Scheduled incremental backup using local port
- 1-click data import/backup
- Multimedia server
- iTunes-compatible
- Download Machine: BitTorrent download
- Email alert in case of failures
- Wake-on-LAN: turn on/off from the network
- USB 2.0 expansion port
- Aluminum d2 heat sink design
- Smart Fan
- Genie and Intego Backup Manager Pro software for Windows and Mac

## Box Content

- LaCie Big Disk Network
- Ethernet cable
- External power supply
- Drive stand for upright use
- Utilities CD-ROM with software and User Manual
- Quick Install Guide

## System Requirements

- PC or Mac equipped with a network adapter
- Windows 2000, Windows XP (SP1 and SP2), Windows Vista™ / Mac OS 10.2 or higher / Linux 2.4 or higher
- Ethernet switch or router
- Minimum free local disk space: 600MB recommended
- 500MHz processor or greater
- Minimum 512MB of RAM
- Web browsers: Internet Explorer, 6.0 or higher, Safari 2.0 or higher, or Firefox 1.5 or higher

### LaCie Big Disk Network

Item Number	301346	301417	301502	
Capacity*	2TB	3TB	4TB	
Interface	Gigabit Ethernet 10/100/1000 Base-TX			
Network Protocols	File Server: SMB (Windows/Mac/Linux); AFP (Mac); FTP; HTTP; HTTPS; Apple Bonjour; BitTorrent			
Administration	Easy-to-use network setup via Web browser; Automatic IP configuration (DHCP-client compatible)			
Expansion Ports	1 x USB 2.0			
Multimedia	UPnP A/V and DLNA media adapter compatible; iTunes server compatible			
Software	LaCie Network Assistant for Windows, Mac, and Linux (for direct access to shares and drive configuration); Genie Backup Manager Pro software with computer recovery for Windows 2000, XP, Vista or higher; Intego Backup Manager Pro software with computer recovery for Mac OS X 10.4 or higher			
Cooling System	Advanced heat-dissipating, heat sink aluminum body; smart fan			
Security	Various security levels: share, groups, users profiles, public, or guest access; Kensington lock compatible			
Dimensions (WxHxD)	44 x 173 x 272 mm / 1.7 x 6.7 x 10.6 in.			
Weight	2500 g / 5.51 lbs.			
Warranty	3-year limited			

**ADVANCE  
CARE OPTION**

## Premium 3-Year Warranty

The LaCie Big Disk Network comes with a 3 Year Limited Warranty. For superior service, it also comes with an optional Advance Care Option, which can be purchased separately online within 30 days of the purchase date. Under the Advance Care Option, LaCie will immediately swap out the product without it needing to be returned first for minimal interruption of your workflow. LaCie covers all freight costs. Availability depends on the sales area. See [www.lacie.com](http://www.lacie.com) for details.

\*EN 1TB (Terabyte) = 1000GB. 1GB = 1,000,000,000 bytes. Total accessible capacity varies depending upon operating environment (typically 10–15% less).  
 \*\*Calculations are based on 2.5MB/3-minute song, 1GB/200 office presentations, and 1GB/movie (encoded in MPEG-4 or equivalent codec).  
 \*\*\* AFP required for full compatibility with Mac OS.
