DESIGN BY F·A·PORSCHE

LACIE

- Fast 52x CD burning
- Record music, photos, videos
- Hi-Speed USB 2.0 or FireWire connection
- PC/Mac recording software included

Stylish design

LaCie's new family of rewritable CD drives was specially created by the famous agency Porsche Design GmbH to provide a simple way to burn pictures, songs or video footage onto personal CDs. With crisp edges and a reflective finish, the LaCie CD-RW Drive will add a stylish element to your desktop.

Fast 52x burns

The LaCie CD-RW Drive burns at speeds that are the fastest on the market, copying a full disc in two minutes. Record your favorite music tracks, share digital photos, burn home videos and store MP3 libraries. Drives are available with Hi-Speed USB 2.0 or FireWire interface.

Complete CD recording software

These compact, rewritable drives let you burn personal CDs with whatever you choose – family pictures, home movies or favorite music tracks. A complete software suite is also included, so you can immediately begin burning professional-quality CDs with drag-and-drop ease.

PC and Mac compatible

Compatible with PC and Macintosh platforms, the LaCie CD-RW Drive can be set up quickly in a few simple steps. Offering unbeatable ease of use, the LaCie CD-RW Drive is ideal for storing and sharing music, digital photos and videos.
