FireWire 800 & 400
USB 2.0

The Triple Interface All-Terrain Hard Disk

reddot design award
winner 2006

Portable, All-Terrain Protection

The best protection of your data requires handling with care, but you and your data don't always live in a peaceful, sterile vacuum. You live in the real world full of bumps, spills, and adventures. The ultra-portable LaCie Rugged Hard Disk is your data's best protection for the real world.

Triple Interface: Connect Anywhere

This external storage solution offers the supreme speed of FireWire 800 along with FireWire 400 and USB 2.0 interfaces for true universal connectivity. Exchanging data between Mac® and PC is easy with LaCie's triple interface solution. It even comes with a USB power-sharing cable for low powered USB hubs/computers. Since it's bus-powered and plug & play, simply plug it into just about any computer anywhere.

FireWire 800 Speed for Media Pros

With maximum interface transfer rates of up to 800Mbps/s with FireWire 800 and up to 7200rpm, this high performance hard drive is ideal for audio/video and digital content creators. Take it with you when working on the road or transferring files from one desktop computer to another. It's perfect for Apple® PowerBook® G5 or G4 users who need data backup, video storage, and large data volume exchange like DV video on the go.

Exclusive, Original Rugged Design

Its unique varnished, scratch-protected aluminum shell and shock-resistant rubber sleeve make the LaCie Rugged Hard Disk especially resistant to harsh elements for extra protection wherever you go. The exclusive creation of world-renowned designer Neil Poulton, the LaCie Rugged Hard Disk is essentially our award-winning, popular PocketDrive with a new and improved design.

- MIL-compliant; shock-proof up to 2.2m
- Maximum speed: up to 800Mbps/s with FireWire 800
- Triple interface, bus powered, plug & play

Features

- Convenient plug & play
- Compact, pocket-sized form factor
- Varnished, scratch-protected aluminum shell
