

Portable DVD±RW, Design by Sam Hecht

USB 2.0

Record DVDs and CDs On the Go

Enhanced Mobility

With the LaCie Portable DVD±RW, Design by Sam Hecht, you can easily create your own music, video and photo CDs or DVDs wherever you go. It can conveniently record to double layer DVD±R, DVD±R/RW, and CD-R/RW, and it's USB bus powered, so you only need one cable to start burning CDs and DVDs. This 8x drive is less than an inch tall and weighs less than a pound—fitting perfectly in your bag, backpack, or briefcase.

Compile Music, Photo, and Video Discs

Back up valuable data, share photos, and archive MP3 libraries and MPEG-2 DVD video. With the ability to quickly store digital data on CD or DVD media, the LaCie Portable DVD±RW, Design by Sam Hecht also features USB 2.0 for easy connection to your PC or Mac.

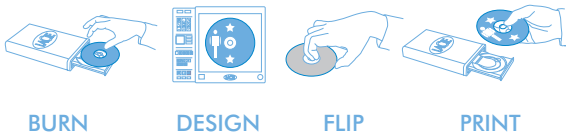

Full-Featured Software Suite

An easy-to-use interface allows you to piece together sophisticated, full-featured DVD movies in a matter of minutes complete with menus, thumbnails and backgrounds for a totally customized DVD. With two different versions of the LaCie Portable DVD±RW, Design by Sam Hecht available, it's easy to choose the right one for your OS. The Windows® version comes with Creator Suite 10, while the combined Mac® and Windows version comes with Toast 9 Basic (as well as Creator Suite 10).

LightScribe Disc Labeling

This portable DVD±RW drive is equipped with LightScribe, an innovative technology that allows you to burn silkscreen-quality labels directly onto CDs and DVDs with a laser instead of a printer. LightScribe uses a combination of your CD/DVD drive, specially coated discs (sold separately), and enhanced disc-burning software (included) to produce precise, professional labels. The result is an impressive iridescent image composed of art, text, or photos of your own creation.

LightScribe Easy CD/DVD Labeling
