

LACIE

LaCie photon19vision

**Fully-adjustable,
professional LCD display**

WIDE-ANGLE VIEWING

Providing an impressive 1280 x 1024 native resolution, state-of-the-art color accuracy, and increased brightness and contrast, the LaCie photon19vision features Wide Viewing Angle technology that allows the user to see accurate color without image distortions from a variety of angles.

BROAD COMPATIBILITY

The LaCie photon19vision provides astounding picture quality required for demanding design applications such as Adobe PhotoShop®, Adobe Illustrator®, Adobe PageMaker®, Adobe InDesign®, QuarkXPress™ and Apple Final Cut®. Compatible with VGA, DVI and ADC connectors, it can be connected to any Mac or PC. The LaCie photon19vision monitor can be also used with the LaCie blue eye vision for optional software calibration.

ERGONOMIC COMFORT

Offering tilt and swivel adjustment for optimum viewing control, the LaCie photon19vision can be used with an ergonomic desk clamp to save desk space, and an extendable arm to accommodate multiple users in a variety of workspace environments. This progressive LCD is also VESA 100 compliant, which allows the user to detach it from the base to adapt to various ergonomic environments.

PIVOT TECHNOLOGY

With rotating capability for Windows operating systems, the photon19vision can be used in either landscape or portrait mode, enabling graphic designers to see an A4 or US letter-size document at 1:1 scale in either page layout. Pivot software is included for Windows 98, Windows 2000, Windows Me and Windows XP.

- Large 19" diagonal viewing area
- On-screen controls for quick adjustment
- Mac and PC compatible, plug and play
- Base and wall-mount options
