

# 2big RAID

PROFESSIONAL DESKTOP RAID  
STORAGE

Data Sheet

## Product Overview

Ideal for creative professionals who need reliable photo backup and seamless video editing, 2big RAID delivers up to 40TB of trusted desktop storage. Easy-to-configure hardware RAID 0/1 enables versatile speed, capacity, and data redundancy, while LaCie RAID Manager sends alerts about drive and system health. IronWolf Pro drives support fast, smooth workflows with 7200-RPM performance and long-term reliability. Hot swappable drives are easy to replace when needed, even while 2big RAID is running. And if a natural disaster or accident strikes, rest easy with 5-year Rescue Data Recovery Services.<sup>1</sup>

## Professional RAID Made Easy

- Fast Performance: Speeds of up to 550MB/s enable fast large-file transfers and seamless 4K video editing.
- Loads of Capacity: Offering up to 40TB of storage for large-scale projects and long-term archiving.
- Hot-Swappable Drives: Easily remove and replace drives while 2big is still operating.
- Simple RAID Configuration: New to RAID? LaCie Toolkit offers step-by-step assistance with setup. For the best speeds and capacity, choose RAID 0. For data redundancy, choose RAID 1.
- Interface: USB 3.2 Gen 2 (up to 10Gb/s) USB-C
- Works With USB-C host: USB4, USB 3.0, Thunderbolt™ 4, Thunderbolt™ 3
- Works with iPad: Connect your LaCie drive with USB-C
- Backed by 5-year Rescue Data Recovery Services<sup>1</sup>
- Includes one-month Adobe® Creative Cloud® All Apps Plan<sup>2</sup> membership

design by neil poulton

<sup>1</sup> Rescue Data Recovery Services not available in all countries.

<sup>2</sup> One-month membership to Adobe Creative Cloud All Apps plan is redeemable during product registration. Must redeem within one month of drive registration. Not available in China. For country list see <https://adobe.ly/cc-countries>. Internet connection and Adobe ID required. Available to users 13 and older. See [www.adobe.com/legal.html](http://www.adobe.com/legal.html) for applicable terms and privacy policy.

Actual data rates may vary depending on operating environment and other factors, such as chosen interface, RAID mode, RAID configuration, and disk capacity. When referring to drive capacity, one gigabyte, or GB, equals one billion bytes and one terabyte, or TB, equals one thousand billion bytes. Your computer's operating system may use a different standard of measurement and report a lower capacity. In addition, some of the listed capacity is used for formatting and other functions and will not be available for data storage.
