

# 6big Thunderbolt™ 3

6-Bay Desktop RAID Storage  
Data Sheet

## Think Big — We've Got You Covered.

With up to 96 TB of capacity on your desktop, up to 1,400 MB/s speeds, and RAID 5/6, the LaCie® 6big Thunderbolt 3 lets you rein in the stampede of data from 4K cameras.

## The very fastest I/O.

LaCie harnessed the breakthrough performance potential of the Thunderbolt 3 I/O and squeezed out speeds of up to 1,400 MB/s — and 1,200 MB/s in RAID 5 — to help slash time off nearly every task in your post-production workflow. Capture RAW footage from a RED® cinema camera or a shuttle drive (such as the LaCie Rugged® RAID), edit multiple streams of ProRes 422 (HQ) or ProRes 4444 XQ, and fly through thumbnail and preview rendering on your biggest projects.

## For your smartest workspace.

With double the video bandwidth of its predecessor, Thunderbolt 3 lets you daisy chain dual 4K displays or a single 5K display to the LaCie 6big. It's even possible to power a compatible laptop through the Thunderbolt 3 connection.<sup>1</sup>

## Big in every way. Except in footprint.

Get up to 96 TB (80 TB in RAID 5) on your desktop — in the same footprint as an iPad Air®. Invest up front in a future-proof, RAID-protected solution to improve data access and security, which can help you save money in the long term.

<sup>1</sup> Delivers up 15W to power compatible laptops.
